

Text

texts in various formats

- this is in **bold**
- this is underline
- this is *emphasis*
- and this is the [link](#)

subsubsection 1

- some code

```
1  from sachin import sachin as s
2
3  def some_crazy_func():
4      return "I m crazy"
```

subsubsection 2

- some code

```
1  from sachin import sachin as s
2
3  def some_crazy_func():
4      return "I m crazy"
```

Python

- some code

```
1  from sachin import sachin as s
2
3  def some_crazy_func():
4      return "I m crazy"
```

Python v2

- some code

```
1  from sachin import sachin as s
2
3  def some_crazy_func():
4      return "I m crazy"
```

Block

creditcard.c

```
#include <stdio.h>
#include "cs50.h"
```

```
int initial;
int dig;
```

```
long long number, rec;
long long divthree = 10e+10;
```

```
/* Function prototype */
void identify();
void hans();
```

Simple image

Figure 1: Django logo

Rotating image

The image shows the Django logo, which consists of the word "django" in a lowercase, sans-serif font. The logo is rotated 90 degrees counter-clockwise, so it is oriented vertically on the page.

Figure 2: Django logo resized and rotated

The image shows the Django logo, which consists of the word "django" in a lowercase, sans-serif font. The logo is oriented horizontally and is located in the bottom right corner of the slide.

Simple table

Name	Phone	Age
Peter	1234	17
Anna	4321	25
sds	ds	sd

Quotes sample

Emacs org-mode is a great presentation tool

- *Fast to beautiful slides*
- *Arne Babenhauserheide*

Simple block

- one
- two
- three

second block

Some text, the headline above is ignored
